

Sustainable Interiors Showroom

The Sustainable Interiors Showroom (SIS) was developed to establish a testing, evaluation and demonstration area in which end-users could experience and learn about sustainable products commonly used in building interiors. The products offered in this showroom will satisfy both the multiple vendor bidding process and the Green Procurement Program requirements, as well as streamline the actual process of purchasing interiors products. All products are included in the GSA Schedule.

Top GSA-approved manufacturers/vendors (M/V) and an interior design firm donated time, materials and informational displays for the SIS. Product features include:

Flooring:

- Recycled content in products
- Recyclability of products at the end of useful life, with a goal of zero waste in landfills (cradle-to-cradle)
- Reduction of air & water emissions from manufacturing facilities, including carbon emissions
- Use of renewable & bio-based fuel sources in manufacturing
- Products within a 500-mile radius of Ft. Jackson

Furniture:

- Recycled content in products and fabrics
- Greenguard Indoor Air Quality Certified Products, attesting to low omission of pollutants
- Recycling programs at manufacturing facilities
- LEED designed buildings
- Zero waste and emission goals
- Alternative energy sources at manufacturing plants
- Recyclability of products at the end of useful life
- Reduction of air and water emissions from manufacturing facilities, including carbon emissions

Paint:

- Low VOC emitting
- Use of light colors, reducing VOCs

The featured products are verifiably designed and manufactured to meet or exceed several US Green Building Council LEED® criteria.

Furniture Plan

The SIS will serve to educate personnel and visitors on the benefits of purchasing “environmentally preferred” products.

For more information on the Sustainable Interiors Showroom at Fort Jackson, please contact Anna Lucas at 803.799.6502 or alucas@cdaarchitectsinc.com.

The U.S. Government does not endorse or favor any specific commercial product or company. Trade, proprietary, or company names appearing in this document are used only because they are considered necessary in the context of the information provided. If a product is not mentioned, this does not mean or imply that the product is unsatisfactory. Similar interior products may be available from other GSA vendors.
